Managed Care Contracting

Set your pharmacy business on solid footing.

Reap the benefits of our long-standing relationships with regional and national health plans and payors. Designed to enhance and sustain dispensing revenue, our managed care contracting program offers multiple chain codes for access to contracts best suited to your needs.

Compliance Guardian

Build a culture of compliance and preserve patient access. Maintain in-network status with a custom web-based solution that offers HIPAA security and FWA training modules; OIG and SAM exclusion verification; and attestation support. Having easy access to documentation that shows proof of compliance is key when preparing for an audit and can help safeguard against federal liability.

Direct Contract Consulting & Data Analytics

Maximize reimbursements through contract optimization. Rely on AlignRx's experienced negotiators to help your pharmacy achieve your strategic goals. Our contract review process comprises intelligent data analysis and projection; evaluation of current to proposed rates; and breakdown of cost of goods and overhead costs. We also recommend an acceptable counteroffer based on a thorough analysis of contract rates.

Central Pay

Maintain a steady cash flow. Conveniently aggregate payments and boost cash flow with a centralized solution for efficient reimbursement. Our differentiated program operates on a same-day payment policy so funds from a payor are disbursed the same day they're received, ensuring you have sufficient cash on hand.

Clinical Services

Establish a blueprint for clinical excellence.

With non-dispensing revenue critical to pharmacy practice transformation, our Clinical Services team is dedicated to helping you monetize your clinical expertise. We support training and identify opportunities where pharmacists can help improve clinical outcomes. Areas of focus include quality measures, social determinants of health, and immunization support.

Efficiently manage your clinical programs with Clinical Connection.

Built by AlignRx, Clinical Connection is a user-friendly platform for pinpointing and managing patient clinical opportunities. Your pharmacy can access custom, prioritized lists of specific patient opportunities broken down by type, payor, and more. This one-stop data shop aggregates data from a variety of sources and allows you to work within the platform or export data to Excel for additional analysis.
